

**MULTIPLE OPERATING SYSTEMS**

Run your applications on the OSes that best suit your design: VxWorks, Linux, or guest OS

**MULTIPLE USE CASES**

Build industrial, medical, aerospace, defense, and automotive systems

**MIXED CRITICALITY**

Use for systems that need a blend of safety, security, certifiability and greater intelligence

# THE BEST OF ALL WORLDS

## WIND RIVER HELIX VIRTUALIZATION PLATFORM

One edge compute software environment for today's demanding application design needs

**APPLICATION CONSOLIDATION**

Turn single-purpose machines into modern and sophisticated systems

**EASILY CERTIFIABLE**

Easily meet strict safety and regulatory requirements for DO-178C, IEC 61508, ISO 26262

**FUTURE PROOF**

Add intelligence and run new applications alongside existing ones
