WNDRVR

VxWorks: The #1 Commercially Deployed RTOS

Leading Provider of Safe, Secure, and Reliable Operating Systems

9 MISSIONS TO MARS

50+ DEPLOYED SPACE PROGRAMS

120+ CIVILIAN & MILITARY AIRCRAFT

50+ CUSTOMERS ON VXWORKS SAFETY PLATFORM

840+ Safety Certification Programs
20 Years' Experience in Safety Certification Software Products

AVIONICS	AUTOMOTIVE	INDUSTRIAL	MEDICAL
DO-178C	ISO 26262	IEC 61508	IEC 62304
Certifiable to DAL A	Certifiable to ASIL-D by TÜV	Certifiable to SIL3 by TÜV	Class C Risk Level by TÜV

TÜV

Market Leadership

Years of Experience

25+ in space missions
40+ in the industrial market
15+ in the automotive industry
40+ in the aerospace and defense market

Leadership

28% market share of total IoT & embedded OS revenue

1st commercial RTOS to support application deployment through containers

1st commercial RTOS integrated in cloud-native platform for developing, deploying, operating, and servicing intelligent edge systems

Proven
in hundreds of safety-critical projects across multiple industries and certification standards

Leading Provider
of embedded hypervisor that supports hard real-time OSes with true multi-core capability

Broad Spectrum
of embedded processor support: 32-bit, 64-bit, and multi-core capabilities on Arm, Intel, RISC-V, and Power Architecture

Industry-leading
real-time, deterministic RTOS for safe and secure applications

Market leadership doesn't just happen.

It's earned.
